Murder-Gunshot Victim-Pat Wisniewski

DETAILS OF OFFENSE, PROGRESS OF INVESTIGATION, ETC.:

(Investigating Officer must sign)

Date 8-30-75

Approximately 10:10AM August 30, 1975 I was advised by H.Q. via telephone that a woman was found shot to death at a trailer home near Town Corner Lake. I arrived at the scene which was on Town Corner Lake Road just south of Herman French's at 11:05AM. Officers at the scene were Coroner Kenneth Mattison, Sgt. Joe Larson and Deputy Dennis Elfstrom. I was informed that a body of a woman identified as Pat Wisniewski or Mrs. Anton Wisniewski's was found dead of a bullet wound in the hallway by the back door of the trailer home. After checking the inside of the trailer home and the general area on the outside and after conferring with Sheriff Wagner and Coroner Mattison I went to the neighbor - the Herman French residence and called H.Q. and Chief Deputy Robert Kohlman and asked him to contact the Crime Lab to send a crew to the scene. I went back to the scene and advised Sgt. Larson and Deputy Elfstrom to check all the cabins and homes in the area and also the campgrounds on Town Corner Lake. Special Deputy Jim Burkhalter was sent to protect a tire print that was found on the gravel road near a boat landing on Town Corner Lake. After the area was secured I took photos of the tire print, a shoe print that was found in back of the trailer, and the Wisniewski trailer. The team from the Crime Lab. arrived sometime between 6:00PM & 7:00PM and I assisted them at the scene. Shortly after 12:00AM on August 31 Anton Wisniewski arrived at the trailer home with Frank and June Riviere in a red Pacer-Wis. Lic.#W1439. After interviewing Anton Wisniewski with Sheriff Wagner, Coroner Mattison and Deputy Jerue I left the scene at 1:14AM and Deputies Jerue and Elfstrom were left to secure the area until morning.

Mrs. Wisniewski's body was taken to the Dickinson Memorial Hospital in Iron Mountain, Mich. by Morasky Funeral Home escorted by Deputy Dennis Elfstrom at 10:48PM August 30, 1975. During the interview of Anton Wisniewski he advised me that he did not work Friday night August 29, 1975 because he had an appointment with a real estate agent during the evening to look at some property he wanted to buy because he was being evicted from his home in Pewaukee. He stated that he had been at his home in Pewaukee - 709 E. Wis. Ave - alone from about 5:00PM until he was woke up by the dispatcher from Kohl's Food Store about 8:30AM Sat. Aug. 30, 1975 who was calling him

by phone because he was late for work. He stated that he had been washing clothes and packing in preparation to move from the home. He also stated that he had called a subject by the name of Irv. Kamasa about 5:30PM Friday afternoon who was helping him in the real estate deal. He also stated that his wife had called him on Friday August 29th about 8:00 or 9:00 AM and asked him if he was going to take them home this weekend. He stated that he was going to come up and get them on Saturday. He also asked if we had found any money in the trailer as he felt that there was about \$2500.00 unaccounted for. When I asked Anton what kind of car he drove he said a 1975 Ford Van-Forest Green in color. He told me ~~the~~ ^{the was wearing the WIA} boots that he had on Friday night Aug. 29th. The shirt & pants that he was wearing Friday night were home in the dryer because he washed them while he was washing clothes. He said he was also wearing a blue wind-breaker which was in the van parked at Frank Riviere's home on 2020 W. Grant Street in Milwaukee. Anton told me that he had received some threatening phone calls a while back on his wife's life because he was involved in some deal with organized crime. He said I could check with F.B.I. Agent Walsh in Milwaukee. Anton consented to give me his boots to submit to the Crime Lab. and that I could also get his jacket from the van if I wanted it.

9-31-75 I met Officer Craig Miller from the Pewaukee P.D. at the Pike Pioneer in Amberg and he gave me three photos of tire prints made by Anton Wisniewski's van in Pewaukee to submit to the Crime Lab. Assisted team from Crime Lab. and talked to Anton Wisniewski again. He stated that he got home about 3:30AM or 4:00AM from work on Friday Aug. 29, 1975 to 709 E. Wis. Ave. Pewaukee. He got up about 9:00AM and went to pick up Irv. Kamasa at the Candy House in Milwaukee at 710 W. Mitchell. Left Irv. about 2:30PM or 3:00PM and took son Tony and ex-wife June Riviere home to 2020 W. Grant in Milwaukee. He then went to McDonalds at 1600 W. Capitol Drive for hamburgers and back home to Pewaukee about 5:00PM. He said he called Irv. Kamasa about 5:00PM or 6:00PM at West Allis on 86th or 87th and Oklahoma. He never left the house after that until Saturday morning about 8:30AM when called by the dispatcher from Kohl's.

He stated that his 1975 Ford 150 Green Van was parked in Pewaukee at his home at 709 E. Wis Ave

near the house by the bushes Friday night. He worked until 1:37 PM Sat. Aug. 30 and called Frank Riviere and told him he was going up north. He went to Frank's house and was there when a detective from Milwaukee P.D. came over and Chief Deputy Kohlman advised him by phone of his wife's death. Approximately 3:45 PM I asked Anton if he would submit to a polygraph examination and he said he would not because there was too much in his past and that he was not guilty of the crime he was sent up for. He said there were things he was involved in right now if they came out he could be sent up.

9-2-75 - Talked to Chief Starke, Pewaukee P.D. He advised that his officers working the second shift on Friday night Aug. 29 did not see Wisniewski's van at his home in Pewaukee on Friday night but they did not drive through the driveway. Anton had told Kohl's the reason why he couldn't work Friday was because his son had been involved in a cycle accident and he had to go to court.

9-3-75 - Called Atty. Herman J. Posner in Milwaukee who is Anton's attorney and he stated that Anton had talked to him about a polygraph examination and he advised him not to at this time because of his past.

Contacted F.B.I. Agent Bob Walsh in Milwaukee and made arrangements for myself and Chief Deputy Robert Kohlman to meet him in his office on 9-4-75 about 1:00PM.

9-4-75 - To Milwaukee with Robert Kohlman - met with Bob Walsh-Chief Starke-Lt. Packard and Security Agent from Kohl's. Made appointment to meet Anton Wisniewski, Robert Karger, Frank and Jean Riviere at Atty. Posner's office in Milwaukee on 9-5-75 about 8:30AM.

9-5-75 - Interviewed subject at Atty. Posner's office with Chief Deputy Kohlman and Agent Bob Walsh. Obtained consent to search Wisniewski's van and home in Pewaukee. Recovered blue windbreaker, dirt samples, and gas receipt from van & 308 rifle from Michael Kachelski at 2020 W. Grant (Anton's son-in-law). Recovered pair of mens pants and deer hunting back tag from Wisniewski's home in Pewaukee. Interviewed Anton Wisniewski again with Chief Deputy Kohlman. Anton stated he did go deer hunting in 1974 and that he had borrowed a rifle from

his son-in-law Mike Kachelski. Chief Deputy Kohlman called Mike and Mike told him that he did not lend Anton a gun. Anton brought his own gun up north. Anton stated he was positive he borrowed it from Mike. Anton then got mad and told us to talk to his lawyer. Went to Madison to Crime Lab. and submitted 308 rifle, pants, jacket, dirt samples and photos of tire prints from Pewaukee P. D.

9-9-75 - To Wisniewski trailer with Chief Deputy Kohlman, searched area, talked to neighbors. Went to Anton's brother's trailer off Beecher Lake Road and found empty 30-30 cartridges near trailer and recovered bullet fragments from pine tree.

9-10-75 - Made arrangements to go to Crime Lab. and Milwaukee on Monday Sept. 15, 1975.

9-15-75 - To Crime Lab.-Madison. Submitted 6 empty 30-30 cartridges and bullet fragments.

Went to Pewaukee P. D. and talked to Chief Starke. Met Irvin Kamasa in Milwaukee and Security Agent John Makowski at Kohl's.

9-16-75- Met F.B.I. Agent Bob Walsh and went to 2020 W. Grant & talked to Mike Kachelski.

He stated that he was advised by his lawyer not to talk to us. Went to Frank Karger's and talked to Mrs. Karger & son Frank Jr. Went to Milwaukee P.D. and talked to Detective Tom Radomski and to the F.B.I. office and met Bob Walsh. Went to Frank Kargers residence and obtained a 306 & 30-30 rifle from Frank Karger Sr. and Frank Jr. and a 30-30 rifle from Jay Retzer. Returned to Marinette County.

9-19-75 - To Amberg Post Office-James C. Marquardt mailed a 30-30 rifle and a 22 pistol to Alabama. Checked with 802-not enough for Search Warrant. Mail items to Bill Jones-Postal Inspector, Green Bay. 1:50PM called Bob Walsh, gave him serial #3372811 on 30-30 Wis. Mod. 94.

9-22-75 - Went to Green Bay with 802 - test fired rifle and 22 pistol with Bill Jones - Postal Inspector & officers John Adriaenssens of Green Bay P.D.- obtained 3 30-30 slugs and 2 casings and 6-22 slugs & 5 casings. 30-30 Win. Mod. 94 rifle Serial #3372811

22 Browning Auto Pistol Ser.#34848P70 - 802

. Sent 30-30 casings and slugs to Crime Lab.-Madison & 22 casings & slugs to F.B.I.-Milwaukee.

9-23-75 - Talked to Bob Walsh. He advised that he talked to Atty. Posner again and still negative on Polygraph for Anton Wisniewski. He also advised that Mike Kachelski had not contacted Atty. Posner. Called Milwaukee P.D.-Det. Tom Redomski on vacation.

9-28-75 - Went to Wisniewski trailer in Beecher and talked to Anton. He said he thought it was probably a stray bullet that had killed his wife. Still would not agree to polygraph but would talk to his attorney on Monday and I should call attorney on Tuesday.

9-30-75 - Called Attorney Posner and he stated that Anton had been in to talk to him on Monday and they still felt that Anton should not submit to polygraph exam. Also called Patrick Lutz at State Crime Lab. and he stated that he could find nothing definite on Anton Wisniewski's clothes or could not definitely match Anton's shoes ~~or murder scene~~ boots with cast ~~or~~ photos of shoe print found at murder scene, but advised to keep items for time being.

10-3-75 - Called Det. Alan Becker of Washington County after talking to Chief Starke and Dep. Becker advised that Dawn Stallman had been in to see him and told him that she had received a threatening phone call Wed. night 10-1-75 and again in the morning of 10-3-75. Subject on phone said "Your next" and Dawn said "What the hell do you mean" and subject stated "You know Your next".

OFFENSE REPORT:

MARINETTE COUNTY SHERIFF DEPARTMENT

DATE: 8-30-75 TIME: 9:51 AM OFFENSE: Murder
 COMPLAINANT: Joan French ADDRESS: Pembine Beecher
 PLACE OF OCCURENCE: South of Herman French home at trailer House Town Corner Lake
 REPORT RECEIVED BY: 819 HOW: Radio DATE & TIME: 8-30-75 9:51 AM 10-2
 VICTIM OF OFFENSE: PAT WISNIEWSKI PHONE:
 ADDRESS: CITY:

DETAILS OF OFFENSE: (REMEMBER WHO, WHAT, WHERE, WHY, WHEN & HOW)

I was at a 2 car 10-50 P.I. in Ambe
 I was called to respond to call of a pos-
 sible heart attack or other trouble.

I went right to the Joan French home, she
 said that the trailer down to the south was
 where the woman was. Also a young girl
 about 9 years old was this woman's daughter.

I then went right to the trailer. When
 I pulled up in the yard I saw a young
 boy about 6 years old, I asked him where
 his mother was; he said she was in
 the house on the floor. I then sent
 him up to Frenches with his dog.

I went into the house and found the
 body of a woman lying face down at the
 end of the hall by the back door and
 entrance to the last bedroom. I checked

her to see if she could be alive yet,
 she was cold and stiff and had no pulse.

I went back outside to tell the rescue
 squad (Pembine) to stay out that there was
 nothing they could do. I then went back
 in it was at this time I noticed the hole
 in the window, I then checked and found
 a hole in the woman's right side.

DETAILS OF OFFENSE: (REMEMBER WHO, WHAT, WHERE, WHY, WHEN & HOW)

At this time I went out and called for a sargent and 814 & 801. I stood by until they arrived, at this time the Pembury rescue was sent home. 814 was the first to arrive, when got there we went in and looked at body and checked around a little.

At this time 814 had me start questioning the other people in the area. I talked to all of the people directly behind the Wisniewski trailer. Only one man out of the bunch saw or heard anything unusual. The was a Richard L. Little ~~interrogated~~ of 427 Greenb, Ave. Wilmette Ill. Mr. Little stated at about 8:30 a vehicle pulled into the public boat landing across from his cabin and parked and shut its lights off. After awhile the ~~the~~ van didn't move and Mr. Little became curious and he and his youngest daughter walked over to check it out. When he saw what he thought to be the Wisniewski's van he was satisfied that it was ok, beca. Mr. Wisniewski often parked it there.

DATE 08-30-75 TIME 10:30 AM PLACE Joan French home, Pembine WI
I, Joan French, am 37 years of age

and my address is French home Town of Becker Wis.

I have been advised and duly warned by Sgt. Joseph M. Larson who has identified himself as Deputy Sheriff Marinette Co. of my right to the advice of counsel before making any statement, and that I do not have to make any statement at all, nor incriminate myself in any manner.

I hereby expressly waive my right to the advice of counsel, and voluntarily make the following statement to the aforesaid person, knowing that any statement I make may be used against me on the trial or trials for the offense or offenses concerning which the following statement is herein made.

I declare that the following statement is made of my own free will without promise of hope or reward, without fear or threat of physical harm, without coercion, favor or offer of favor, without leniency or offer of leniency, by any person or persons whomsoever.

Saturday morning around 1:00 AM 08-30-75 while laying
on the couch I heard a shot & I got up, looked out living room
window that faces the Wisniewski Mobil Home. I didn't see anything
I thought it was a violator. I'm not sure if there was a
light on or not in the mobile home. I didn't see any cars
near here at any time. A short time later I went to bed.

Around 8:00 AM this morning the Wisniewski kids came to
my house. They said their mother was sleeping on the floor
in the hall. I didn't think anything of that. I gave them
pencils & papers & they went home. About 1/2 hr. later, Julie
came back, said her mother was hurt & bleeding. She told
me her mother told her to come & get me. I then went to
the Wisniewski mobile home, went in, called "Pat" I saw Pat laying
in the hall, her head in the corner. I left immediately, came
back home to call the Rescue Squad & the Sheriff. They do not have
any phone. As soon as I saw her, I thought of the gun she
soon after the kids came to our house.

I have read this statement consisting of 1 page(s), and I affirm to the truth and accuracy of the facts contained therein.

This statement was completed at 10:55 PM, on the 30th day of AUGUST 1975

around 10:00 AM this morning, I was contacted by radio by Coroner Mattison to assist with a investigation that he was conducting in the Town of Beecher. I was patrolling on U.S. 141 near Middle Inlet. At approx 10:15 AM I arrived at a Mobile Home located approx. 3 mi. West of U.S. 141 in Beecher Township off Town Coroner Lake Rd. Coroner Mattison, & Deputy Dennis Elfstrom informed me there had been a shooting inside the Mobile Home. After talking with him a short time, myself & Deputy Elfstrom went in the Mobile Home where the body of a female was laying face down in a hall way near a rear bedroom & bathroom entrance.

I walked up to the body & noticed a side door was partly open. A screen was damaged along with about a 3" hole in it. A window section in the door was broken. I did not touch the body & then went back outside. A short time after, Lt. Donald Hawley arrived. We all discussed as to what happened, when Lt. Hawley asked me to go to the next door neighbor, a Joan French, to get a state ment from her on this matter. I then went to the French home just North of the Wisniewski Mobile Home. Before I got out of the car, a woman & three children walked up to me. I identified myself to her & explained my being there. She agreed to give me a statement of what she knew. She told me the three children were from the mobile home. I tried to question them, but with all the excitement, none of them could spell their names & only told me their mother was shot. I did finally get their names, age etc. that I wrote on the back of the statement. This statement was given to Lt. Hawley. I stayed until around 4:00 PM to assist further.

 Investigating Officer

DATE August 30, 1975

MATTER OF Homicide Followup Investigation

TO Lieutenant Donald ^{HAWLEY} Holley

Marinette County Sheriff's Dept.

SIR:

Regarding information per your request, on one ANTON WISNEWSKI of 709 E. Wisconsin Ave. Village Of Pewaukee. On the evening of above date subjects 1975 green Ford van was located at this residence, when officer Craig Miller and myself went up to the residence to see if Mr Wisnewski was there, we were met by MICHAEL G. KACHELSKI 2020A W. Grant St. Milwaukee Wis., who identified himself as Mr. Wisnewski's son-in-law, stated that Mr. Wisnewski has left for up north at approximatly 6:30PM this date, and that Mr. Kachelski was at the residence to pick up some of his father-in-law's belongings, and some ducks, because there have been some missing, Also that Mr Wisnewski had let him use the van. In obtaining a license plate check for ownership, it listed to a 1975 Ford to Mr. Wisnewski- (plate # K97-197 Vin. # E15HHX31608) at the above listed address.

In returning to the P.D. and doing some more follow-up work on the case, it was found out that Mr. Wisnewski drives truck for Kohls Food Stores- Genl Ofc 11100 W. Burleigh Wauwatosa, Wis. In contacting Kohls Security it was found out that the subject had worked all week, except for Friday night 8-29-75, and he reported for work Saturday morning 8-30-75 and was late. I also found out from Security Officer John Makowski that they have had Mr. Wisnewski under surveillance for some time because he ~~is~~ always short of cargo when he reaches his destination. I was also informed that the subject was involved in a theft of a trailor load of chocolate and is under inditement at this time. Once the green van had left, Officer Miller went back to the residence and took pictures of tire tracks where the vehicle had turned around in the mud. (Photos enclosed)

At 12:05 P.M. Saturday, August 30, 1975, Time Control contacted team leader Dr. Michael J. Camp with a request from the Marinette County Sheriff's Office. Chief Deputy Kohlman was contacted. The request concerned a death by shooting in a trailer home. Dr. Camp and Patrick J. Lutz responded. The scene was identified as a mobile home, Route 1, Pembine, Town of Beecher, in Marinette County, Wisconsin.

A body of a woman, identified as Patricia Wisniewski, was found face down at the rear of the hallway inside the mobile home. The rear door screen contained a large hole and the storm window glass opposite it was shattered. The body, the interior and exterior of the trailer, and the associated grounds were processed for physical evidence.

An autopsy was performed by Dr. Robert L. Anderson at the Dickinson County Memorial Hospital, Dickinson County, Michigan. His report will be sent direct to the Marinette County Sheriff's Office.

The scene was released to the Sheriff's Office at 5:00 P.M., Sunday, August 31, 1975. Photographs of the scene, the body, and those taken at the autopsy will be forwarded later after they have been processed and printed.

RE: WISNIEWSKI, PATRICIA (V) - DEATH INVESTIGATION (SHOOTING)
AGENCY NO. 75-2728 LAB CASE NO. 75-2357

Dear Sir:

Evidence relative to the above captioned case has been received by the Laboratory Section(s) indicated below:

☒ Chem-Physics	☒ Microanalysis
☐ Documents	☒ Toxicology
☐ Drug Identification	☐ Liquor
☒ Firearms/Tool Marks	☐ Photography
☒ Identification	☐ _____

1. Results will be sent on the completion of our examinations.
2. Immediately notify the Laboratory of the court date the analyst is scheduled to testify.
3. When analyst is not needed but you require the examination results for a court date, please inform the Laboratory of this date immediately.
4. When case is cancelled, please notify the Laboratory immediately so our efforts can be directed to other cases.

You are encouraged to contact us at any time regarding your case. To expedite your inquiry, please refer to our Laboratory Case Number.

Sincerely,

Daniel J. Dowd, Director
Crime Laboratory Bureau

Examination of item M revealed it to be a .30 caliber bullet jacket of the jacketed soft point type. It had been fired from a rifled barrel having six (6) lands and grooves right hand twist.

Examination of items N, O, and P revealed the presence of a fired bullet core and two (2) small metal fragments consistent with fired bullet core material.

It is suggested that any firearm encountered in this investigation which has a bore diameter of .30 caliber be submitted to this Laboratory for examination and comparison with item A above.

The Winchester Model 100, .308 Winchester caliber, semiautomatic rifle, serial number 171588, item AK, was examined, test fired, and found to be mechanically functional.

Rifling class characteristics of the above rifle consisted of four (4) lands and grooves, right hand twist. The .30 caliber bullet jacket, item M, reportedly recovered from the victim's body had been fired from a rifled barrel having six (6) lands and grooves, right hand twist.

Based on the above rifling class characteristic differences, it is the opinion of the examiner that the bullet jacket, item M, was not fired from the rifle, item AK.

Standard wire from the edge of a hole in a screen door panel removed from the rear door of the Wisniewski trailer home (item F) was examined by the laboratory.

This standard wire was subsequently shown to be consistent with questioned wire fragments recovered from the skin area just below the entrance wound on Patricia Wisniewski's body (item W) as regards to its size, shape, and physical properties.

On the basis of the above findings, it is the opinion of the examiner that the standard wire (item F) and the questioned wire (item W) are of the same type.

~~This report recognizes that other wires with properties consistent to the above wire exist.~~

The standard wire also contained traces of lead and copper which is consistent with the copper jacket bullet recovered from the body.

Standard glass from the window of the rear door of the Wisniewski trailer home (item G) was examined by the laboratory.

This standard glass was subsequently shown to be inconsistent with questioned glass recovered from the right boot (item D1) reportedly belonging to Anton Wisniewski as regards to its physical properties.

On the basis of the above findings, it is the opinion of the examiner that the standard glass (item G) and the questioned glass (item D1) are not of the same type.

These items; a pair of shoes (item E), a pair of pants (item AL), and a jacket (item AM), all reportedly belonging to Anton Wisniewski, were examined by the laboratory. Nothing of apparent evidentiary value as regards physical trace evidence was found.

In particular, no trace materials were found on these items which could be used in meaningful comparisons with the standard glass (item G).

Two dirt samples (items AN and AO) reportedly from a van belonging to Anton Wisniewski are of no evidentiary value as the van was known to have been at the scene on previous occasions.

The following sources of glass were collected in an attempt to reconstruct a window:

- item G: glass remaining in the second from the bottom of five panes in the rear door of the Wisniewski trailer home;
- item H: glass from the wooden rear steps and the grass area around the steps;
- item I: glass from the bottom channel of the door between the window and screen; and
- item J: glass from the rug area of the hallway inside the rear door.

Reconstruction of the window pane was sufficient to indicate the following results.

1. The window was penetrated from the outside inward.
2. The center of the only hole is approximately 42 inches above the hallway floor.

In addition, the center of the hole in the window screen (item F) is approximately 43 inches above the floor and the lower wound on the body measured 46-47 inches from the heel. These facts are consistent with a slight upward path of the bullet caused by deflection off of the window. The window is not perpendicular to the floor but inclined slightly.

Items A and B, two plaster casts of footwear impressions, were examined and compared with item D, one pair of boots, and item E, one pair of shoes.

Examination of these items revealed a similarity in general size of the plaster cast heel impression, item A, and the heels of item D, one pair of boots, and item E, one pair of shoes. Due to the lack of sufficient discernible individual characteristics of items A and B no further conclusions can be made.

Item C, the right middle inked fingerprint of a female victim reported to be Patricia Wisniewski taken at Route 1, Pembine, Wisconsin (Wisniewski residence) on August 30, 1975, was compared with the right middle inked fingerprint, item AP, of a female victim reported to be Patricia Wisniewski, taken at the autopsy at Dickinson County Memorial Hospital, Iron Mountain, Michigan, on August 31, 1975.

As a result of this comparison it is the opinion of the examiner that the two inked fingerprints taken on August 30, 1975, and August 31, 1975, were both made by the same finger, that being the right middle finger of the victim reported to be Patricia Wisniewski.

The Winchester, Model 94, .30-30 Winchester caliber lever action carbine, serial number 1870730, item AQ, was examined, test fired, and found to be mechanically functional.

Comparison microscope examinations were made involving test fired bullets from the above carbine, item AQ, and the previously submitted .30 caliber fired bullet jacket, item M. No identifications were made.

The following described firearms were examined, test fired, and found to be mechanically functional:

item AS - Remington, Model 788, .30-30 Winchester caliber bolt action rifle, serial number 036371;

item AT - Winchester, Model 94, .30-30 Winchester caliber lever action carbine, serial number 3816094; and

item AU - Remington, Model 740, .30-06 caliber semi-automatic rifle, serial number 37672.

Comparison microscope examinations were made involving test fired bullets from items AS, AT, and AU, and the previously submitted .30 caliber fired bullet jacket, item M. No identifications were made. Further, based on general rifling class characteristic differences, it is the opinion of the examiner that the bullet jacket, item M, was not fired from the Remington rifles, items AS or AU.

The reported test fired bullets, items AV, AW, and AX, from a Winchester, Model 94, .30-30 Winchester caliber lever action carbine, serial number 3372811, were examined and microscopically compared with the previously submitted .30 caliber fired bullet jacket, item M. No identifications were made.

(AEN)

The reported test fired bullets, item AY, from a Savage, Model 170, .30-30 Winchester caliber slide action rifle, serial number A725279, were examined and microscopically compared with the previously submitted .30 caliber fired bullet jacket, item M. Based on these comparisons, it is the opinion of the examiner that the bullet jacket, item M, was not fired from the Savage rifle, item AY.

Right hand fingernail scrapings (item U) and left hand fingernail scrapings (item V) were examined. Blood was identified; however, the amount was insufficient for further testing.

Oral swabs (item X) and vaginal swabs (item Y) were examined. No seminal material was identified.

An orange housecoat (item AH) was examined. Blood of human origin was identified and type A group specific substance was demonstrated. Two holes, approximately 1/2 inch and 3/8 inch, and several small surrounding holes were observed through the middle right back.

A blue night gown (item AI) was examined. Blood of human origin was identified. Two holes, approximately 1-1/8 inches and 3/8 inch, and several smaller surrounding holes were observed through the middle right back.

No blood was identified from the following items:

Trousers reportedly belonging to Anton Wisniewski
(item AL)

Blue jacket reportedly recovered from Anton
Wisniewski's Ford van (item AM)

A blood sample reportedly recovered at the autopsy of Patricia Wisniewski (item Z) was identified as type A,M,Rh+.

The following items were received; however, no examinations were effected.

Combed head hair	(item Q)
Pulled head hair	(item R)
Combed pubic hair	(item S)
Pulled pubic hair	(item T)
Body bag	(item AJ)

The bullets, items AZ1 through AZ5, reportedly test fired from a Winchester Model 94, .30-30 Winchester caliber lever action carbine, serial number 3372811, were examined and microscopically compared with the previously submitted .30 caliber fired bullet jacket, item M.

These comparative examinations revealed a general correspondence of rifling class characteristics between items AZ1 through AZ5, and the bullet jacket, item M, however, because of the absence of sufficient corresponding individual rifling characteristics between items AZ1 through AZ5, and item M, an identification could not be effected.

AUTOPSY REPORT

Name First Name Wosniewski, Patricia		Attending Physician R.L. Anderson, M.D.		Room No.	Hosp. No. DOA A-75-56
Date of Admission	Date of Death ?1:30 a.m. 8-30-75	Date of Autopsy 8:30 a.m. 8-31-75	Age—Yrs. 35	Occupation	Autopsy No. A-75-56

Clinical Diagnosis _____

Autopsy: Complete ☐ Limited: Head only ☐ Trunk only ☐

Findings and Conclusions:

Autopsy ordered by the Sheriff's Department and Coroner of Marinette County.

EXTERNAL EXAMINATION

This is the body of a well developed, somewhat obese, middle aged, white female measuring approximately five feet three inches in height, and weighing approximately two hundred and thirty pounds. The body is partially clothed in a bathrobe and nightgown which show a large amount of blood, particularly on the back and right side. There is a defect on the right side, both of the nightgown and of the bathrobe. It measures approximately a cm. and a half in diameter. Blood is present on the body, on the trunk, back, and upper thighs. Livor mortis is present on the lateral and anterior portions of the body. Rigor mortis is not present. There are numerous defects noted on the right lateral side of the back. There are two rather large elliptical shaped defects in this area. The superior one measuring thirty mm. in length by twelve mm. in diameter, and a second a cm. below it measuring twenty five mm. in length by eleven mm. in diameter. These defects are approximately four cm. back of the center line, and from nineteen and a half to twenty three cm. above the right superior iliac crest. Also present are numerous very tiny lacerations measuring up to three or four mm. in diameter, and numerous tiny punctate wounds. These defects are present around the main two larger defects in a zone measuring twenty cm. by eight cm. Several tiny fragments of wire are present in some of the tiny punctate wounds. The skin and nailbeds are fairly pale in appearance. No evidence of cyanosis, jaundice or edema is noted. There are also approximately a dozen or so tiny punctate wounds and tiny lacerations noted on the back of the upper right arm. There is no other evidence of trauma or surgical scars on the surface of the body.

INTERNAL EXAMINATION

SEROUS CAVITIES

The right pleural cavity contains no fluid or adhesions. There is a hemorrhagic area noted, however, at the base of the right pleural cavity. The left pleural cavity does show a defect measuring a cm. and a half located near the midportion of the diaphragm. There is also a defect in the pleura of the left side, between the sixth and seventh ribs, approximately at the midlateral position or just anterior to the lateral position. Within the soft tissue between the ribs there is found a lead, somewhat deformed, bullet measuring approximately four or five mm. in diameter, and up to a cm. in length. The left pleural cavity does contain a small amount of blood.

(continued)

Date: _____

Signed _____ M.D., Pathologist

The pericardial sac likewise contains a small amount of blood. No adhesions are present in either pleural cavity or pericardial sac. The peritoneal cavity contains a moderate amount of partially clotted blood, estimated as being approximately five or six hundred cc. No adhesions are present. A large amount of hemorrhage is noted in the retroperitoneal area, in the upper portion of the abdominal cavity, extending from the right side across to the midline, and in the region of the defect in the diaphragm. The peritoneum is ruptured posterior to the stomach.

HEART

The heart weighs three hundred and five grams. The left ventricle weighs one hundred thirty grams, the right ventricle sixty grams. The pulmonary arteries are free of thrombus or embolus. The coronary arteries are in the normal anatomic position. All four valves are free of calcification and deformity, and appear of normal caliber. Sections through the myocardium, left ventricle, and septum show no evidence of tumor, hemorrhage, fibrosis or necrosis. There is a small defect in the posterior portion of the right ventricle near the apex. This defect contains a small fragment of lead measuring approximately three to four mm. in diameter.

LUNGS

The right lung weighs three hundred and fifty grams, the left lung three hundred and twenty grams. There is a hemorrhagic area measuring approximately eight cm. by five by three cm. located in the posterior portion of the right lower lobe. No definite defect is noted in the pleura in this area, however. The tracheobronchial tree contains no foreign material. The pulmonary vasculature is free of thrombus or embolus.

GASTROINTESTINAL TRACT

The esophagus shows no gross pathologic change. There is a linear defect noted in the posterior wall of the stomach measuring approximately eight cm. in greatest diameter. The edges are partly digested and reddish in color. This defect is noted between the defect in the pleura and that of the diaphragm. The duodenum, jejunum, ileum, appendix, and colon show no gross pathologic change.

LIVER

The liver weighs fourteen hundred seventy five grams. Much of the posterior and lateral portions of the right lobe of the liver are shattered with clotted blood within the shattered areas of liver, and adjacent to the liver. No metallic fragments are noted within the liver.

The GALLBLADDER is present in the usual position, containing approximately ten cc.'s of dark green viscid bile without calculi.

The CYSTIC DUCT and COMMON BILE DUCT show no gross pathologic change. The PORTAL VEIN and HEPATIC ARTERY show no gross pathologic change.

AUTOPSY REPORT

Wosniewski, Patricia

- 3 -

A-75-56

SPLEEN

The spleen weighs one hundred twenty five grams. The capsular surface is smooth. Cut surface reveals the normal reddish brown parenchyma without evidence of tumor, hemorrhage, fibrosis or necrosis.

ADRENALS

The right adrenal shows areas of hemorrhage in the surrounding fat, but the adrenal itself shows no hemorrhage. The left adrenal shows no pathologic change.

PANCREAS

The pancreas is present in the usual position. It is normal in size and shape. It shows the normal tan lobulated parenchyma without evidence of tumor, hemorrhage, fibrosis or necrosis.

KIDNEY

The right kidney weighs one hundred thirty grams, the left kidney one hundred forty five grams. The renal vasculature shows no thrombus or embolus. Neither ureter is dilated.

URINARY BLADDER and GENITAL ORGANS

The urinary bladder shows no gross pathologic change. The uterus, cervix, tubes, and ovaries show no gross pathologic change.

ORGANS OF THE NECK

The thyroid weighs approximately fifteen grams. It is free of nodulation. The trachea and larynx are free of occlusion and contain no foreign material.

VASCULAR SYSTEM

The aorta and major vessels show no pathologic change.

MUSCULOSKELETAL SYSTEM

On examining beneath the defect of the right midback, the eleventh and twelfth ribs are shattered. There is a large amount of soft tissue damage in this area. The body of the eleventh vertebra shows a large defect penetrating the vertebra from side to side. On examining this defect there is a yellowish fragment of metal measuring approximately a cm. and a half to two cm. in length by a cm. in diameter and less than a mm. in thickness. This appears to be a malformed jacket of a bullet. Several small fragments of what appear to be lead are noted in the right side of the vertebral body and in the soft tissue and fragments of bone adjacent to this. No other defects are noted in the skeletal system.

LYMPHATIC SYSTEM

No adenopathy is noted.

AUTOPSY REPORT

Wosniewski, Patricia

- 4 -

A-75-56

CENTRAL NERVOUS SYSTEM

Not done.

GROSS TENTATIVE DIAGNOSIS

1. Massive hemorrhage from extensive trauma to liver secondary to # 2.
2. Missile wound to right midback with penetration of eleventh and twelfth ribs, twelfth vertebral body, stomach, left side of diaphragm with bullet lodging between sixth and seventh ribs on the left with second smaller metallic fragments lodged in right ventricle.
3. Hemorrhagic areas base of right lower lung.
4. Numerous small punctate wounds, right lateral back and back of right arm.

MISCELLANEOUS

The metallic fragments were removed from the body, along with samples of blood, urine, tissue, hair, etc, and the entrance wound areas, and clothing are given to Detectives Dr. Michael Camp and Patrick Lutz of the Department of Justice, State of Wisconsin.

MICROSCOPIC EXAMINATION

All organs show quite marked degenerative changes.

LUNG

Section from lung reveals areas of hemorrhage with granular eosinophilic staining material present in most of the alveoli.

Sections from HEART, ADRENAL, KIDNEYS, SPLEEN, UTERUS, OVARY, PANCREAS, LIVER and GALLBLADDER all show degenerative features, but no other pathologic feature can be demonstrated.

FINAL DIAGNOSIS

1. Massive hemorrhage from extensive trauma to liver secondary to # 2.
2. Missile wound to right midback with penetration of eleventh and twelfth ribs, twelfth vertebral body, stomach, left side of diaphragm, with bullet lodging between sixth and seventh ribs on the left with second smaller metallic fragments lodged in right ventricle.
3. Hemorrhagic areas base of right lower lung.
4. Numerous small punctate wounds, right lateral back and back of right arm.
